#### CHERRY PECTORAL For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life-increase its enjoyment, and even prolong the term of human exstence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely conrol and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures affected by its use, but we would present the following:—and refer further enquiry to my American Almanac, which the agents below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these state-

J. C. Ayer. Dear Sir,—My little son, four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Having used your CHERRY PECTORAL in California, in the wintere of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on any little boy. I gave him a tea-spoon-full every three hours, commencing in the morning, and by ten o'clock at night. I found a decided change for the better, and after three days use, he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and refleve the anxiety or many a fond parent. For all affections of the Throat and Lungs, I believe it the best medicine extant. A feeding of the deepest gratitude, prompts me in addressing yes these lines,—but for your important discovery, my little boy would now have been in another world.

Rock Hill, (Summerset Co...) N. J., July 21, 1882.

Da. J. C. Aver, —Since your medicine has been known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good it has done. It take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gradified in seeing the benefit it confers.

Please send me a further supply, and believe me Yours, with respect, JOHN C. WHITLOCK.
P. S. Almost any number of certificates can be sent you, if you wish it.

Winsor, C. W., June 26, 1882.

J. C. Aver. Sir: This may certify that I have used your Cherry Pectoral for upwards of one year, and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully.

THE NATURALIZATION LAWS .- 'The following is the bill for the modification of the Naturalization and Immigration Laws, which has been introduced in the U. S. Senate by Hon. Stephen Adams, of Mississippi, who was elected as a Democrat, but who will hardly be henceforth permitted to enjoy full fellowship with the foreignized Democracy, who seem to think that one Dutchman or Irishman is worth a dozen native born Americans. It was read twice, and referred to the Committee on the Judiciary:

"Be it enacted, That no alien who may arrive in the United States, after the passage of this act, shall be permitted to become a citizen of the United States, unless he shall, on making applideclare on oath, and prove to the satisfaction of the court having jurisdiction of the case, that he has been a resident of the United States twentyone years continuously prior to the time of making such application; and he shall not be permitted to make his declaration of his intention to ecome a citizen of the United States, until he shall have resided in the United States ten years

[From the St. Louis Republican.)

The case of Dred Scott vs. Sanford, a suit for freedom now pending on appeal in the United States Supreme Court, was before our own courts under the name of Scott vs. Emerson, and will be found reported in I5 Mo. Rep. p. 576. facts are briefly as follows: Dr. Emerson, the owner of Dred Scott, was a surgeon in the army, who being ordered from St. Louis to Rock Island in Illinois, took his servants with him, and de tained them in servitude from 1834 to 1836, and then removed them to Fort Snelling, and detained them until 1838, when they were returned to

St. Louis. Our Supreme Court, Gamble dissenting, held that the slave returning to this State, although he might have been illegally held in slavery in Illinois, or in the Territory, and might perhaps there have sued for and obtained his freedom, yet upon his return, he was remitted to his status n this State, and that our courts would not enorce the laws of Illinois, and would not confiscate the property of her own citizens at the com-mand of a foreign law, and that the fact of the suit for freedom showed that the defendant had

not assented to the freedom of his slave. The suit now pending upon appeal was brought in the Circuit Court for this district in the usual method of trespass for an assault. The defendant oleaded, in abatement of the jurisdiction, that the aintiff was his slave, and was not a citizen of the State of Missouri, and therefore not entitled to bring suit in the United States Court. This olea was overruled upon demurrer, and the facts submitted to the court, which followed the decision of the Supreme Court of the State, and from

his decision an appeal was taken. The question, therefore, arising upon the rec ord before the court would seem to be: 1st, Is a negro a citizen within the meaning of the Con-stitution so as to be entitled to all the privileges of the several States, and thus entitled to sue for his freedom in the Courts of the United States? 2nd-Will the courts of the United States undertake to give force and effect to the laws of one State within the limits of another, by deciding upon the status of the party as effected by the laws of a foreign State, or will it hold that the party returning in slavery, his status must be de- juridical days. termined by the laws of the State in which he resides, and that the domestic and social condition days in March and September, and continue, of the persons domiciled within its territory must each, twelve juridical days. The Black Republican papers are endeav oring to make it appear that the platform adopted by the American Convention, was carried by a sectional vote. An analysis of the vote, pubished by the Newark Eagle, shows that the dele gations from New Hampshire, Rhode Island, North Carolina, Arkansas, and Illinois, were equally divided, one-half voting for and the other half against the new platform. Of the 13 Masachusetts delegates, 5 voted for and 8 against t; of those from N. Y., 32 for and 1 against it; of those from Pennsylvania, 13 for and 14 against it; of those from Maryland, 4 for and 3 against

Of the 125 delegates from the free States, 72 voted in the affirmative, and 53 in the negative; and of the 58 from the slave States, 36 voted in the affirmative and 22 in the negative. It was, therefore, neither a sectional vote, nor a sectional triumph either as regards the candidates or the Platform.

Butler defended Atchison from alleged interfer nce in Kansas affairs—Toucey, also, on similar rounds. Hale replied—drawing sketches from some New England politicians, who seemed to think that the curse, originally pronounced upon the tempter, belonged to them, namely: "upon thy belly shalt thou go, and dust shalt thou eat." Laughter.] Thus they bow down before the slave power, which dispenses a large share of the patronage of the country, making pretensions to devotion to the Constitution themselves, they acused every man of treason who dares asse nanhood, and claim the right to speak and act

After further debate the Senate adjourned. House-Mr. Hickman, from committee Elections, made a report presenting reasons for renewing the demands for authority to send for authority to send for persons and papers in the Kansas contested election case. It starts out by epresenting that an allegation on the part of Gov. Reeder is that the Legislature which passed the election law under the provision of which Gen. Whitfield was chosen, was imposed upon the people of the Territory by a foreign invading force, who seized upon the government and have ength the following questions:

e had satisfactorily by depositions. Upon the first point it is urged that State affairs there have excited the feelings of the whole people of the Union—that it is the theme of a Pre dential message and proclamation, and that overeign States in different portions of the Union have considered the propriety of interference by men and arms-that the question to be settled is, whether a military power has seized upon rritory and governs it by a strong hand his question involves the existence of self-govrnment, and cannot be settled by groping among ssertions and denials, but only of facts proved. Upon the second point, it contends that the peo-

ple of the Territory cannot be prejudiced by whatever Reeder did as Governor; that the peo le are now contesting the seat through him, and hat, if it was not so, still Congress could and hould investigate it, if a reasonable doubt exists is to the right of Gen. Whitfield to a seat. take depositions would be fruitless: that the Presient regards the presence of the army there as eccessary to preserve peace, and the execution of he commission would bring the belligerent par-

ties face to face, and incite hostilities; that it would be equivalent to an effort to obtain Territo-ry on a battle-field, and that commissioners would powerless to preserve peace. In the course of the argument the committee allude to the fact that ordinarily in despotisms heir subjects enjoy some degree of peace and uiet, while in Kansas the settlers are not only lleged to be reduced to State vassalage to a for ign power, but that personal safety is unknown i murder and outrage are said to be almost the daily record of its history. The report is volumnious and argumentive, and is concurred in by Washburn, of Me., Watson, Spurries, Hickman,

Colfax and Bingham. After reading the report, Mr. Stevens submit-

ed a minority report-same committee. The minority report says that Reeder's sole obection in his application seems to be to devolve on the committee the enquiry into the validity of the territorial law under which Whitfield was elected, the members who passed that law were not themselves properly elected as is to be estabshed. Forthis, Reeder wishes to send for perons and papers, thus making the House not only the judges of the qualifications and returns of its wn members, but of members of Territorial and State Legislatures, which of course follows. This would be assuming a position not properly per-taining to the House and establish a precedent of dangerous tendency. If the House conclude that the examination shall be gone into, the end would be obtained by sending Commissioners to Kansas to take such testimony as may be, perti ent and competent, whereas, sending for person and papers would occasion much delay, incon

enience and trouble, if not prove impracti Accompanying the report is a paper from Whit-ield, who submits that Reeder has no right to be heard, not having been a candidate when Whit-field was elected, nor was Reeder a candidate in any election authorized by law. The testimony oposed to be taken is not competent to prove Reeder was Governor when the mem bers of the Legislature were chosen. The elec-tion was conducted by Judges appointed by Ree ler and who took the prescribed oath to reject the

otes of non-residents The members of the Kansas Legislature took heir seats without cavil or complaint from Ree ler, who commissioned those very members, b whom the law was passed, under which Whitfield was elected. The pretext of Reeder's, (that the embers of the Legislature were illegally elect-Stevens and Oliver, Missouri; Smith Alabama. A consideration of this subject was postponed

Grow assailed the President's special mes sage upon Kansas, maintaining that the peo-ple had a right to call a Convention to form a contitution, and earnestly condemned the effort to extend slavery over a free territory.

Cadwallader argued that legislation under the onstitution has always been to make a mutually and South, or to leave the people free to mould their own domestic institutions. He defended the Kansas-Nebraska act.

WASHINGTON, March 5. The foreign mails by the America contain othing concerning the difficulties with England

Advices from our foreign ministers induce the onviction that peace will be consummated at Paris by a full understanding between France and Russia and Austria, although France at the out-set may favor the demands of England.

The probability is that when they are claimed, ersistently, France will decline further prosecu ion on their account. If Mr. Crampton should immediately send the required explanation in answer to Marcy's demand, and Lord Clarendon be still detained at Paris, Mr. Adington, permanent foreign secretary, will doubtless answer for the British Government under instructions from Lord

Mr. Buchanan has not written that he would withdraw before his successor's presentation. He has said positively that he must be at home by the first of April, to attend to his private affairs. It is not improbable, therefore, that he may have said, "before Dallas arrives."

KENTUCKY CORN AND COB MILL.

IT is well known that there is great economy in crushing or grinding the kernels of all grain before feeding it to stock, and that there is much nutriment in the cobwhen properly broken or ground. And the only reason that mills arranged to produce these desired results have not been more generally introduced among planters and farmers, has been their complex arrangement and high cost.

In the Kentucky Corn and Cob Mill, of which the In the Kentucky Corn and Cob Mill, of which the above is an accurate engraving, we claim to have produced a machine at once efficient, substantial and cheap, while its arrangement is so simple that the most ordinary hand can adjust and operate it. This machine, unlike any other, is regulated by means of a single set screw, which is easily moved by hand, and is applied directly under the centre of the mill.

Any one using these Mills will find a clear saving of one goarter of their corn over the old plan of feeding. We warrant these Mills to give entire satisfaction. Purchasers may use them for thirty days and if not satisfied, can return them and get their money.

They will grind Corn and Cob as fine as desired, at the following rate per hour, with one horse:

No. 1,4 to 5 bushels per hour. Weight 350 fbs. Price \$25.00.

825 00.

No. 2, 6 to 8 bushels per hour. Weight 400 hs. Price
830 00. Adding freight from Louisville.

The above prices includes the complete Mill ready to
hitch to without any further expense, and can be set in
operation in five minutes time. For sale by

STRAW-CUTTER QUESTION.

MESSRS. J. B. FORD & CO., of the city of New Albany, in the State of Indiana, claiming to be the owners of Sandford's paten-right to manufacture what is known as Sandford's Straw-Cutter, have soft the right to manufacture the same to various persons for certain prescribed territories, and they have warned the public against purchasing the Straw-Cutter manufactured by us. We have been for a long time satisfied that the so-called-Sanford patent is a fraud, and that it is void, being a palpable piracy and infringement of the patent-right of John Boynton, which bears date 25th day of September, 1833, and has expired. We have been satisfied that the machine denominated Sanford's perfect Straw-Cutter is constructed not according to the specifications contained in Boynton's and all this has recently been decided in the U.S. Circuit Court for the Middle district of Tennessee. Some months since, we sold to B.S. Weller, of Nashville, several of the so-called Sanford Straw-Cutters. STRAW-CUTTER QUESTION.

Some months since, we sold to B. S. Weller, of Nashville, several of the so-called Sanford Straw-Cutters, which were taken by him to the State of Tennessee and there sold. Ch's M. Alexander claimed to be the assignee of Sanford's patent for the State of Tennessee from J. B. Ford & Co., and sued Weller on infringement. Weller defended and insisted that Sanford's patent is void and a piracy on Boynton's, and, as we before said, court and jury so decided.

We are prepared, as heretofore, to furnish all orders for the Straw-Cutters manufactured by us, and to defend any and every person in selling or using them.

WE respectfully call the attention of the farmers of Kentucky, to COWEN & GREADER'S Corn and Grist Mill! Now on exhibition, and running, at Hardy's Tan Yard, Frankfort, Ky. For the quality of meal made by this Mill, we challenge competition. The said Mill requires but two-horse power, and will give general satisfaction to all that will examine or use it. It will grind from 6 to 8 bushels per hour, at ordinary running speed, and it occupies but little space. Farmers are particularly requested to call and examine it.

Application for Insurance received by John C. Hernson, Agent, Frankfort, Ky., who will furnish applicants with pamphlets containing rates, conditions, &c.

The Agency of this Company, at Frankfort, Ky., has been in existence one year last May, during which time one loss had occurred. This risk was that taken by the late lsaac P. Blackwell, for the benefit of his wife. One premium only had been paid (about \$74,) on \$5,000. The whole \$5,000 was paid to Mrs. Blackwell, whose acknowledgment is given below.

This presents one of the many instances in which the benefits of Life Insurance is fully illustrated. The assured had failed in business, left nothing for his wife, except what resulted from the insurance on his life, which he had been so thoughtful in making.
